## Summary

---

2.5+ years of experience as a Software Developer specializing in React.js and modern web application development. Proven expertise in building high-performance, scalable, and responsive applications using React JS, Redux, and RESTful APIs. Adept at collaborating with cross-functional teams, performing code reviews, and ensuring adherence to industry best practices. Passionate about delivering intuitive user experiences and continuously adapting to emerging technologies.

## Education

---

### **Bharati Vidyapeeth Deemed University, Pune**

*BTech in Information Technology (CGPA: 7.2/10)*

June 2016 – December 2020

## Technical Skills

---

- **Frontend Technologies:** React.js, Redux, React Native, HTML5, CSS3, JavaScript (ES6+), Material UI, Bootstrap, Context API
- **Backend Technologies:** Node.js, Express.js, RESTful APIs, MongoDB (Beginner), MySQL
- **Tools and Platforms:** Git, GitHub, CI/CD, Docker, AWS Elastic Container Service, modern front-end build pipelines (Vite, Webpack), Chat-Gpt, Cursor-Ai
- **Additional Skills:** Responsive Design, Debugging, Code Reviews, Agile Methodologies, Troubleshooting, (Familiarity with TypeScript and front-end testing frameworks)

## Projects

---

### **Innov Plus (Hospital Information System Web App)**

- Developed a high-performance web application using React.js and Material UI, ensuring optimal responsiveness across devices.
  - Integrated and consumed RESTful APIs built in Node.js, with a focus on clean, maintainable code and UI/UX feasibility.
  - Migrated the project from HTML to a modern React + Vite architecture.
- Live Demo

### **Tunes Liberia App (Music App for iOS and Android)**

- Designed and implemented dynamic UI components in React Native for subscription-based user experiences.
- Integrated third-party payment API (MoMo Pay) to streamline in-app transactions and enhance user trust.

### **Third Eye Thoughts (Daily Affirmation App)**

- Built engaging and responsive screens using React Native, ensuring seamless performance and bug-free user interactions.
- Improved subscription functionalities through rigorous debugging and iterative enhancements.

### **Orange Moon (Staff Management App)**

- Developed an appointment booking interface with intuitive UI/UX, collaborating closely with backend teams for API integration.

### **Test Prep (Online Test Simulator)**

- Engineered a fast, responsive testing platform using React + Vite; ensured integration with RESTful APIs for real-time data exchange.

Project Link

### **WNS (Word Naming System) — Hackathon Project - EthGlobal Singapore**

- Simplified blockchain address identification by replacing hexadecimal strings with user-friendly names.
- Developed a responsive frontend with React.js and actively participated in code reviews and debugging sessions.
- Collaborated with backend developers to integrate API services seamlessly.

GitHub Repository

### **Blockchain Bidding Platform (Hackathon Project - Devcon Bangkok)**

- Created a React-based web application for a blockchain-powered bidding system within a 24-hour sprint.
- Integrated smart contract interactions with real-time bidding, demonstrating rapid prototyping and agile development.

GitHub Repository

## **Professional Experience**

---

### **decimal.at (blackfishtech Pvt Ltd), Bangalore (Remote Software Developer)**

*May 2024 – January 2025*

- o Designed and developed high-performance web applications using React.js, ensuring technical feasibility of UI/UX designs.
- o Integrated RESTful APIs and collaborated with backend developers to optimize application functionality.
- o Participated in code reviews and applied best practices to maintain clean, efficient, and scalable code.
- o Debugged and resolved technical issues, enhancing the overall user experience and application stability.

### **JamTech Technologies Pvt Ltd, Lucknow (Associate Software Developer)**

*November 2022 – April 2024*

- o Developed and maintained hybrid mobile applications and REST APIs using React Native and Node.js.
- o Collaborated within cross-functional teams to design, implement, and ship new features, ensuring alignment with client requirements.
- o Emphasized code quality through unit testing and peer reviews.

### **Trivial Works Pvt Ltd, Lucknow (Intern)**

*March 2022 – September 2022*

- o Gained hands-on experience with React.js, HTML5, and CSS3 by contributing to the development of interactive web pages.
- o Assisted in integrating Google Firebase services and troubleshooting UI issues.

## **Achievements and Interests**

---

- o Awarded Employee of the Month for exceptional performance and teamwork.
- o Active contributor to Agile development processes and continuous improvement initiatives.
- o Enthusiast in Artificial Intelligence and emerging web technologies.
- o Passionate about learning Generative AI, Agentic AI, AI agents, LangChain, and LangFlow.
